

# Skywind Application

**TESRenewal Username:** FifthAvenue

**Country of Residence:** United States

**Timezone:** PST

**Interested in:** Landscaping

**Level of Commitment:** Fairly active, at least 10 hours a week if not more.

**Skills and Experience:** As a 5 year industry veteran with over a decade of experience working in both Unreal and Unity, I feel that would be a spectacular addition to the team.

I'm currently working on a high profile AAA game as an Open World Designer, both populating the environment with modular assets, and developing environment based stories and narratives. Morrowind is such a beautiful and mysterious world, and I would love to have a hand in recreating some of that magic!

I've attached my portfolio with several of my most recent projects for your convenience
